

Peter Gaskill has 20 years experience in the development and management of seniors housing across Canada. He is the President of Pacific Arbour Retirement Communities, a position he has held since January 2009.

Pacific Arbour owns, manages and develops retirement homes in Greater Vancouver and currently has three communities in operation, one in construction and one in development.

Since joining Pacific Arbour, Peter has worked with the team in developing two LEED Gold retirement residences, developing an organic composting program, measuring and reducing green house emissions and is exploring ways of growing food for the meals prepared in the company's retirement residences.

Prior to working for Pacific Arbour, Peter served as Senior Vice President, Developments, of Chartwell Seniors Housing REIT and as the CEO of Chartwell's development affiliate, Spectrum Seniors Housing. He was part of the executive team that took Chartwell public in 2003. He got his start in seniors housing with Chartwell's predecessor companies in 1991.

Mr. Gaskill has been involved in the design and operation of numerous retirement homes and long-term care facilities across Canada and is passionate about the role good design and programming can have on the well-being of senior residents. Mr. Gaskill lives in Vancouver and was one of the founding Directors of the British Columbia Retirement Communities Association now BCSLA. He is a past board member of the BC Care Providers.

Mr. Gaskill currently sits on the BCSLA board in the capacity of Treasurer and is a Director on two boards related to the ownership of Pacific Arbour Retirement Communities.

As a teenager, Mr. Gaskill developed a love of classical music playing the piano and on occasion, the violin. He attends several VSO performances and VRS recitals each season. Mr. Gaskill is also a member of the Vancouver Art Gallery and the Museum of Vancouver.

Prior to working in the seniors housing industry Mr. Gaskill held senior positions in various real estate development and finance companies.

Mr. Gaskill holds a Bachelor of Science degree in engineering from the University of Waterloo.
